

## Tukituki River Access Points (East)

### 18. Rowe Road

Rowe Road is 17km south of Havelock North along Middle Road. Access is via privately owned farmland at the end of the public road and permission is required. Foot access only.

### 19. McKenzie Road

4km up Kahuranaki Rd from Rochfort Rd. An unformed public road leads to the river. The road is maintained by the adjacent landowner. Please notify the landowner that you wish to use the road and be aware of any farming operations in the area at the time. Either visit the house or phone 06-874-7613.

### 20. Blind Road

Foot access is available from the road end via a farm track.

### 21. Rochfort Road

Access via double gates approximately 1km from the Kahuranaki Rd intersection. This is the top of the Wildlife Refuge. No dogs below here. This is a fishing access only. Access with firearms prohibited.

### 22. Kahuranaki Road

There are a number of access points along the road. Most landowners allow angler access as long as you ask first. Wildlife Refuge, no dogs.

### 23. Waimarama Road Bridge

Access via a gravel track on the true right, immediately upstream of the bridge. The track goes a short distance downstream, under the bridge. This is the bottom of the Wildlife Refuge, no dogs above here.

### 24. Waimarama Road (Smalls)

Access is via the cattle yards approximately 1km downstream of the Waimarama Road Bridge on Waimarama Road. There are rough vehicle tracks. Both up and downstream, and good walking access. This area has extensive reaches of papa bedrock that can be very slippery during the summer.

### 25. River Road

Hastings District Council Riverlands Park is at the end of the road. Lots of parking.

### 26. Moore Road

Off Tukituki Road approximately 7km from Haumoana. Walking access from road end, up or downstream.

### 27. Tennant Road

Off Tukituki Road approximately 6km from Haumoana. Walking access from road end. Good in early spring when whitebait are plentiful.

### 28. Mill Road (Blackbridge)

Walking access from both sides of the bridge. Vehicle access on true right, downstream of the bridge via a shingle plant. Good in early spring when whitebait are abundant.
