Mohaka River All reaches	Feature	Mohaka River	1.Poronui Station	Access Point 1 is ?		Standard Marker	A poled public walking route to the Mohaka River starts at the end of Taharua Road which is accessed off SH5 near Rangitaiki. The land adjacent to the track is privately owned and should not be crossed. It is a 9km walk to the river. The alternative is to fly into one of the private airstrips or the Department of Conservation (DOC) helicopter pad at Oamaru hut. The Oamaru and Kaipoi Rivers meet at this point to form the Mohaka River. The public access continues downstream of the confluence for approximately one kilometre on the true left bank.	It seems we are calling The Oamaru River "Taharua River " on the static Map. Check marker point Coordinates. Needs a short description.
Mohaka River All reaches	Feature	Mohaka River	2.Blue Gums or Hot Springs	Access Point 2 is via Puketitiri, Pakaututu and Makahu Roads to the Blue Gums/Hot Springs road end. The Te Puia hut track provides good walking access. Camping is permitted.		Standard Marker	DOC Kaweka Forest Park. Drive via Puketitiri, Pakaututu and Makahu Roads to the Blue Gums/Hot Springs road end. The Te Puia hut track provides good walking access to the upper reaches including the Makino River. The hut is approximately three hours walk from the carpark (camping is permitted).	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	3.Makahu River	Access Point 3 to the Makatu River is over private land. Please contact Oliver Nicholas (Ph 06-839-8629) for permission. No dogs or firearms.		Standard Marker	The Makaha River is crossed on the way to the Blue Gums/Hot Springs. Please contact Oliver Nicholas (Ph 06-839-8629) for permission to fish the Makahu either upstream or downstream from this point. No dogs or firearms.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	4.Pakaututu Bridge	Access Point 4 gives good access to the Mohaka River. A strip of public land on the true left bank leads downstream to the Ripia River confluence and up the true right bank of that river for approx 10km.		Standard Marker	This gives good access to the Mohaka River at this point. A strip of public land on the true left bank leads downstream to the Ripia River confluence and up the true right bank of that river for approximately 10km.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	5.McVicars Road Bridge	Access Point 5 Turn onto McVicars Road from SH5 on the Taupo side of the river. About 3km along you reach the McVicars Road Bridge. Access both upstream and downstream from this point.		Standard Marker	Turn onto McVicars Road from SH5 on the Taupo side of the river. About 3km along this road you will reach the McVicars Road bridge. A strip of public land on the true right bank provides access both - upstream and downstream from this point.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	6.McVicars Road	Access Point 6 is approx 1km from SH5, down a metal vehicle track that leads to the river. Along the road near the Inangatahi Stream confluence is an esplanade reserve on the true left bank.		Standard Marker	Approximately 1km from SH5 a metal vehicle track leads off to the left and down to the river. Further along the road, near the confluence with the Inangatahi Stream, there is an esplanade reserve on the true left bank.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	7.Glenfalls Recreation Reserve	Access Point 7 is off Waitara Road, with good access with camping available on this DoC reserve about 6kms from SH5.		Standard Marker	Good access and camping is available at this Department of Conservation reserve alongside Waitara Road, 6kms from SH5.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	8.Jock Sutton Road	Access Point 8 is off Waitara Road through the Panpac Forestry road to the Waipunga River junction. Camping is allowed on the riverbank. Please drive with lights on for safety reasons. No open fires permitted.		Standard Marker	This Panpac Forestry road leads off Waitara Road and provides public access to the Mohaka River opposite the Waipunga River junction. Camping is allowed on the riverbank. The road can be closed for forestry operations or at times of high fire risk. Please drive with lights on for safety reasons. No open fires permitted.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	9.Glenfalls Forest (Auroa Road)	Access Point 9 is off Waitara Road through the Panpac Forestry road to the Waipunga River junction. Camping is allowed on the riverbank. Please drive with lights on for safety reasons. No open fires permitted.		Standard Marker	Off Waitara Road, this Panpac Forestry road provides public access to about 5km of river. A number of grassed sites are available for camping. Take care with the ford over the small creek which is normally passable in a car. This road can also be closed for the same reasons as 7. Please drive with lights on for safety reasons. No open fires permitted.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	10.Te Hoe Junction	Access Point 10 is at Te Hoe Junction, accessible from both SH5 via Waitara Road and SH2 via Pohokura Road (Tutira store turnoff). The true right bank of the Mohaka is accessible from this point.		Standard Marker	The site is accessible from both SH5 via Waitara Road and SH2 via Pohokura Road (Tutira store turnoff). The end of Pohokura Road passes down through Waitere Station to opposite the Mohaka River junction with the Te Hoe River. The true right bank of the Mohaka is accessible from this point. Cross the Mohaka with considerable care. The Te Hoe flows over Crown river bed. You can walk upstream as long as you stay within the river.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	11.Willowflat Road Bridge	Access Point 11 Turn off SH2 just south of Kotemaori. Access to the river is possible from the road bridge. Park safely off the side of the road either end.		Standard Marker	Turn off SH2 just south of Kotemaori. Access to the river is possible from the road bridge.	Check marker point Coordinates. Check short description.

Spreadsheet	Type	Location	title	Description	Information/Access	Marker Type	Original text [website]	Notes
Mohaka River All reaches	Feature	Mohaka River	12.Patuwahine Road	Access Point 12 turn off SH2 at Raupunga on to Putere Road and Patawahine Road is approximately 10km on the left. This forestry road leads steeply down to the river and in wet conditions is only accessible by four wheel drive vehicle.		Standard Marker	This forestry road leads steeply down to the river and in wet conditions is only accessible by four wheel drive vehicle. Turn off SH2 at Raupunga on to Putere Road and Patawahine Road is approximately 10km on the left.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	13.AH2 Bridge	Access Point 13 at AH2 Bridge. A parking and picnic area on the true right bank provides access to a short stretch of river.		Standard Marker	A parking and picnic area on the true right bank provides access to a short stretch of river.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	14.SH2 Access	Access Point 14 is approximately 1km north of the SH2 bridge an unnamed gravel road on the right leads down to the Mohaka River. Park close to the edge of the water and fish about 1km of river.		Standard Marker	Approximately 1km north of the SH2 bridge an unnamed gravel road on the right leads down to the Mohaka River. It is possible to park close to the edge of the water and fish about 1km of river. Not a well recognised spot but worth a go.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Mohaka River	15.Mohaka Township Road	Access Point 14 provides access to the river mouth and the road bridge 1km upstream from the mouth. Some good sea run fish use this reach, particularly late in the whitebait season (November).		Standard Marker	This road provides access to the river mouth and the road bridge 1km upstream from the mouth. Some good sea run fish use this reach, particularly late in the whitebait season (November).	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Waipunga River	16. Tatarakina Bridge	Access Point 14 is off the road to Tatarakina Station. The Waipunga River turns off SH5 about 5km south of the Tarawera Tavern. Because of the steep nature of the river channel and thick bank vegetation, only about 1km of river is fishable from this point.		Standard Marker	The road to Tatarakina Station and the Waipunga River turns off SH5 about 5km south of the Tarawera Tavern. Because of the steep nature of the river channel and thick bank vegetation, only about 1km of river is fishable from this point.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Okoeko Stream	17.Tarawera Hot springs	Access Point 14 is via the access track to the hot springs and adjacent river heads north from the Tarawera Tavern carpark. Please leave gates as you find them. Approximately 2km of river is reasonably accessible from this point.		Standard Marker	The access track to the hot springs and adjacent river heads north from the Tarawera Tavern carpark. Please leave gates as you find them. Approximately 2km of river is reasonably accessible from this point.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Okoeko Stream	18.State Highway 5	Access Point 18 SH5 follows the river which can be accessed from a number of points. Note that these points are adjacent to SH5 and considerable care should be exercised when parking in this area.		Standard Marker	SH5 follows the river which can be accessed from a number of points. Note that these points are adjacent to SH5 and considerable care should be exercised when parking in this area.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Okoeko Stream	19.State Highway 5	Access Point 19 SH5 follows the river which can be accessed from a number of points. Note that these points are adjacent to SH5 and considerable care should be exercised when parking in this area.		Standard Marker	SH5 follows the river which can be accessed from a number of points. Note that these points are adjacent to SH5 and considerable care should be exercised when parking in this area.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Okoeko Stream	20.State Highway 5	Access Point 20 SH5 follows the river which can be accessed from a number of points. Note that these points are adjacent to SH5 and considerable care should be exercised when parking in this area.		Standard Marker	SH5 follows the river which can be accessed from a number of points. Note that these points are adjacent to SH5 and considerable care should be exercised when parking in this area.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Okoeko Stream	21.State Highway 5	Access Point 21 SH5 follows the river which can be accessed from a number of points. Note that these points are adjacent to SH5 and considerable care should be exercised when parking in this area.		Standard Marker	SH5 follows the river which can be accessed from a number of points. Note that these points are adjacent to SH5 and considerable care should be exercised when parking in this area.	Check marker point Coordinates. Check short description.
Mohaka River All reaches	Feature	Okoeko Stream	22.Upper Waipunga/Okoeko Stream	Access Point 22 Turn right onto Pohukura Road after passing the Waipunga Falls lookout area when travelling from Napier. Then turn onto Waipunga Road. An access permit is needed. Phone: 07-350 1234 or 07-366 1000.		Standard Marker	Turn right onto Pohukura Road after passing the Waipunga Falls lookout area when travelling from Napier. Then turn onto Waipunga Road. Above the falls the river supports only brown trout. An access permit is needed. Phone: 07-350 1234 or 07-366 1000.	Check marker point Coordinates. Check short description.
Mohaka Tributaries	Feature	Mohaka River Tributary	1.Makino River	The Makino River originates in the Kaweka Forest Park just upstream from the Te Puia Lodge. It is a small back country river that fishes well early in the season. As with most rivers of its size care in presentation is required to achieve success.		Standard Marker	Originates in the Kaweka Forest Park just upstream from the Te Puia Lodge. It is a small back country river that fishes well early in the season. As with most rivers of its size care in presentation is required to achieve success.	Check Regs
Mohaka Tributaries	Feature	Mohaka River Tributary	2.Makahu River	The Makahu River, as with the Makino, fishes well early in the season and requires care in your approach to achieve success.		Standard Marker	As with the Makino it fishes well early in the season and requires care in your approach to achieve success.	Check Regs
Mohaka Tributaries	Feature	Mohaka River Tributary	3.Ripia River	The Ripia River enters the Mohaka downstream of the Pakaututu Road Bridge on the true left side. It is a fast flowing bouldery river that requires care when wading and can hold good numbers of trout. A strip of public land runs up the true right bank of the river for approximately 10km. The land adjacent to this is privately owned.		Standard Marker	The Ripia enters the Mohaka downstream of the Pakaututu Road Bridge on the true left side. It is a fast flowing bouldery river that requires care when wading and can hold good numbers of trout. A strip of public land runs up the true right bank of the river for approximately 10km. The land adjacent to this is privately owned.	Check Regs
Mohaka Tributaries	Feature	Mohaka River Tributary	4.Inangatahi Stream	Inangatahi Stream is a little known tributary that runs into the Mohaka River near the SH5 bridge. It can be accessed from Potter Road. A permit is required to access this road. This can be obtained from Rayonier (06-834-0713 or 0274 477 0815).		Standard Marker	This little known tributary runs into the Mohaka River near the SH5 bridge. It can be accessed from Potter Road. A permit is required to access this road. This can be obtained from Rayonier (06-834-0713 or 0274 477 0815).	Check Regs
