

## FISH & GAME OFFICER - ECOLOGIST

The North Canterbury Fish and Game Council is looking to appoint an enthusiastic Fish & Game Officer to join our small Christchurch based team as an ecologist.

If you have an interest in monitoring and research of sport fish and game birds, advocating for habitat, and are passionate about the North Canterbury environment, then we would like to hear from you, especially if you have the following attributes:

- A true passion for outdoor recreation, wildlife and the environment
- Well developed oral and written communication skills.
- Experience with species monitoring, research and management
- A reasonable working knowledge of fish and game bird management principles
- A tertiary qualification in one of the biological sciences, preferably ecology / zoology or wildlife management, or relevant work experience.

The successful applicant's primary role will be to coordinate the Councils monitoring and research programmes for sports fish, game birds and habitat. A necessary component of the role will be advocating for sports fish and game bird habitat through various policy and consenting matters.

The Fish & Game Officer role has an enviable balance of field and office based work with opportunities to support other Fish & Game related activities such as compliance, wetland enhancement projects and hunter and angler liaison.

A full Job Description is available upon request from the North Canterbury Fish & Game Office or by visiting the careers page on our website [www.fishandgame.org.nz](http://www.fishandgame.org.nz).

Applications close on 4pm Monday 11 October 2021. Cover letter and CV should be addressed to:
