Dear Mark

**Additional Notice of Intention to Apply Vertebrate Toxic Agents: Waitara Valley and Willow Flat**

Following on from our previous notification dated 17 July 2017, Epro Limited (Epro) wish to advise you that this programme has been delayed and will now be undertaken during September and October 2017.

Epro has been contracted by TBfree New Zealand Limited to undertake tuberculosis (TB) vector control (possums) in the Waitara Valley and Willow Flat areas.

In accordance with the Hazardous Substances Regulations, Epro gives notice of our intention to apply sodium fluoroacetate and potassium cyanide. The toxic bait will be in the form of pellets and will be dyed green in accordance with the Hazardous Substances and New Organisms Act 1996.

This operation will commence as soon as practicable after 22 September 2017 and should be completed by 20 December 2017.

Warning signs will be placed at entry points to the operation prior to commencement.

Please feel free to contact Epro if you require any further information.

Yours faithfully

A handwritten signature in black ink, appearing to read "Andrew Buchanan".

Andrew Buchanan
